

CSE 433 Embedded Systems

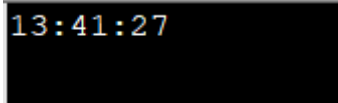

STM HW 2

Due Date May 1, 2020, Friday

Using the Timer & UART of STM32

Using a general purpose timer, record seconds, minutes and hours precisely and show on Tera Term using UART communication and HAL library.

You should see on Tera Terminal screen:

A screenshot of a Tera Terminal window. The background is black, and the text "13:41:27" is displayed in a yellow, monospaced font. The text is positioned in the upper left corner of the terminal window.

Do not use interrupts. Use HAL Library and CubeMX...
